Experience

- **Front-End Developer — XURITI**
  Tenure: August 2024 – November 2024

  - Building user interfaces and front-end components using React.js.
  - Implementing responsive web design principles to ensure that the application renders well across multiple devices.
  - Integrating front-end components with APIs and state management libraries like Redux.
  - Integrating front-end UI with the back-end server-side logic.

Projects

- **Portfolio Website (React.js)**: Developed a personal portfolio website to showcase web development projects and technical expertise. Implemented responsive design, optimized performance, and ensured seamless user experience. Integrated back-end features to enhance interactivity.

- **Trip Booking Page (Next.js)**: Developed a dynamic trip booking page allowing users to search, filter, and book travel itineraries. Features included real-time availability, user authentication, and secure payment processing. Focused on a user-friendly interface with responsive design and efficient database handling.
- **Realtime-Docs (MERN)**: Created a collaborative document editing platform enabling multiple users to edit documents simultaneously in real time. Integrated WebSocket for instant updates, optimized performance, and ensured data integrity.

Achievements

- **Top Performer (Web Development Training):** Verified and added by Internshala Trainings (Oct 2022 – Dec 2022). Successfully completed 8 weeks of certified training covering HTML, CSS, Bootstrap, DBMS, PHP, JavaScript, React, and Final Project modules. Scored 100% in the final assessment.
